

## WG Local Places for Nature Funding - Carmarthenshire 2022-23

- Capital grant funding for the WG Local Places for Nature Project has been received by the Carms Nature Partnership to be delivered through the Local Authority.
- LPfN focuses on but is NOT restricted to **areas of deprivation, urban and peri-urban areas or those with little or no access to nature, places where people live, work or access public services**. The ethos is fundamentally about behaviour change; if people engage with nature, they value nature and will take steps to restore and enhance nature.
- LPfN incorporates delivery of the 'modest measures that make an impact locally', a new Programme for Government (PfG) targets
- Assets must be maintained for 5 years.
- Elements of this grant are also delivered by [Local Places for Nature - Keep Wales Tidy](#) for schools/community groups and via the [Heritage Lottery Fund](#). Here T&CC applications are supported by One Voice Wales' biodiversity officer.
- There is capital and revenue spend.

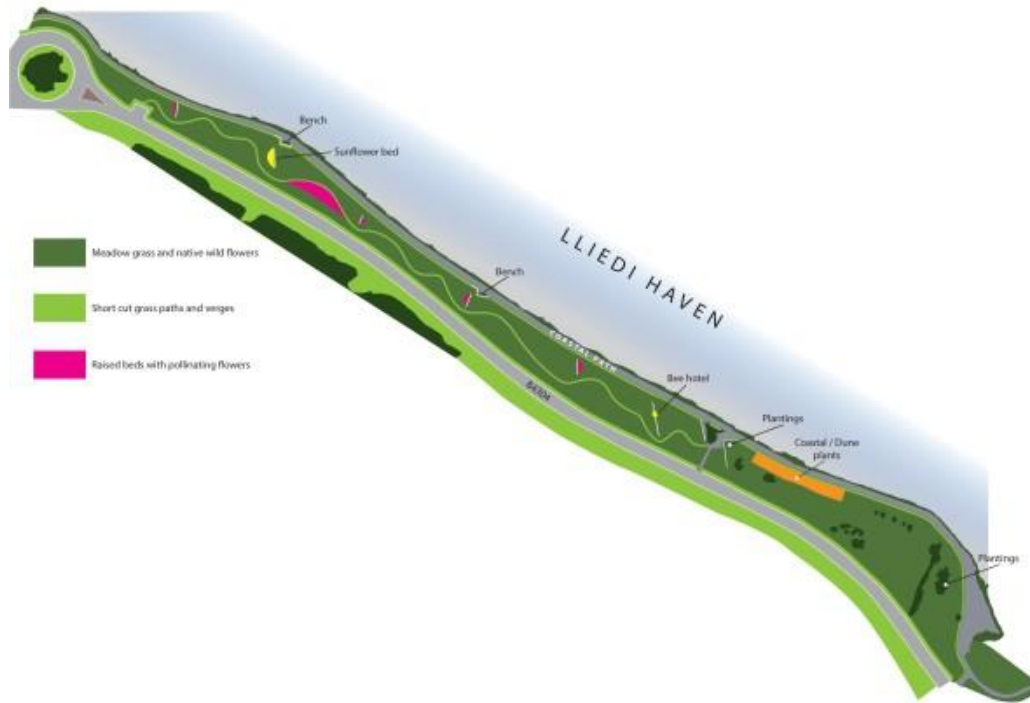

### Capital projects

Delivered by:	Where?	Outputs	Update/risks
Dyfed Powys Police	Carmarthen Brecon Newtown Fishguard Cardigan	<ul style="list-style-type: none"> <li>• Changed mowing practices <b>5 sites</b> around DPP buildings across 4 counties to enhance approx. <b>2.5 Ha</b> enhanced for pollinators</li> </ul> <p>Capital funding to purchase</p> <ul style="list-style-type: none"> <li>• Grillo FD2200TS cut and collect machine</li> <li>• Flat bed trailer</li> </ul>	There may be a <b>risk</b> that this may not be delivered as awaiting confirmation from the Police that the procurement process has started.
